Bomb Disposal Communication Kit

The Con-Space Hardline Bomb Disposal Kit is configured for a team of three in order to maintain hands-free, simultaneous two-way voice communication, while investigating explosive devices. The Bomb Disposal Kit is designed to provide private communication for a team of three bomb specialists wearing face shields and full body armor for protection. The Bomb Disposal Kit is designed for:

- Disposal and controlled detonation of bombs and IEDs
- SWAT & tactical operations

The Bomb Disposal Kit uses the Hardline communications gear worn underneath the facemask. It's intrinsically safe and will not cause sparks. The disposal team can communicate in full duplex over a private, secure network.

Key Benefits

- Hands-free/full-duplex two-way voice communication.
- Use in encapsulated suites with respirators or any make/model of breathing apparatus.
- Intrinsically safe
- Non-RF emitting
