

GoPro Adaptor

USES AND APPLICATIONS

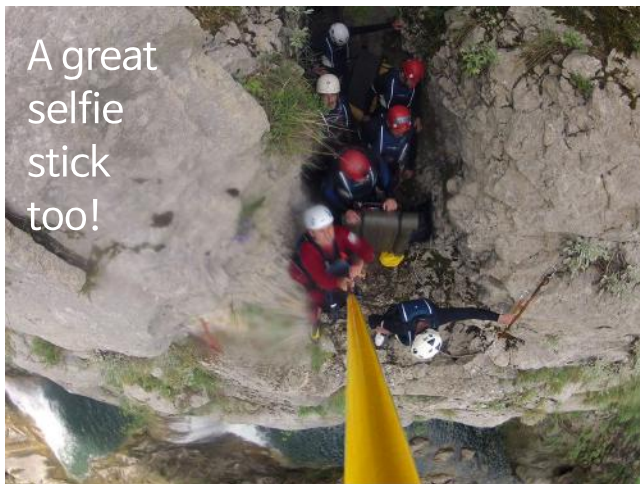

The Reach and Rescue GoPro Adaptor attaches directly onto all GoPro and similar cameras, enabling you to get closer to the action at height, length or underwater.

HOW TO USE

Attach your GoPro head of choice by screwing it onto the Adaptor. Attach the collar onto the gold section of the reach pole and extend to the desired length.

MAINTENANCE & PRECAUTIONS

The sleeve fitting should be regularly tested on the pole top fitting, as damage will prevent the attachment from fitting securely.

A great
selfie
stick
too!

SPECIFICATIONS

- Height: 11cm
- Width: 3cm
- Weight: 100g
